HIDHA C H

AI/ML · Computer Vision · Deep Learning

+91 9539148650 | subairhidha@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

AI/ML student with hands-on experience in Python, TensorFlow, Scikit-learn, and computer vision. Built predictive modeling and object detection projects using data preprocessing, model training, and evaluation techniques. Strong foundation in machine learning, deep learning, and web development, with a keen interest in solving real-world problems through applied AI.

TECHNICAL SKILLS

Languages	Python, SQL, C, Java, HTML, JavaScript
ML / DL	TensorFlow, PyTorch, Keras, Scikit-learn, Computer Vision, Media Pipe
Data Analysis	Pandas, NumPy, Matplotlib
Web / Backend	Django, MySQL, SQLite
Tools & Env	Git, GitHub, Jupyter Notebook, Google Colab, LaTeX

PROJECTS

Intelligent Gesture Controlled Virtual Interface and System *Python, Computer Vision, MediaPipe, Machine Learning*
github.com/Hidha09/gesture

- Developed a real-time gesture recognition system to control a virtual interface using hand movements
- Used computer vision techniques and hand landmark detection (MediaPipe) to accurately track and interpret gestures
- Implemented functionalities like keyboard control, clicking, and system interaction without physical input devices

Skin Cancer Detection System *Python, Machine Learning, Computer Vision, Deep Learning*

- Developed a machine learning-based system to detect and classify skin cancer from dermoscopic images.
- Built a predictive system to assist in early diagnosis and support healthcare decision-making.

Bank Transaction Fraud Detection (Case Study) *Python, Pandas, Scikit-learn*

- Built a machine learning model to predict fraudulent bank transactions using transaction data.
- Applied data preprocessing, outlier detection, feature selection, and multiple classification models to improve prediction accuracy.

Class Management System *Python, Django, HTML, CSS, Bootstrap, SQLite*

- Developed a web-based class management system for managing assignments, marks, and student-teacher communication.
- Implemented features like assignment upload, notice management, marks tracking, and student authentication using Django.

EDUCATION

Integrated M.Sc. in Computer Science — Artificial Intelligence & Machine Learning *June 2026*
Nehru Arts and Science College, Kanhangad, Kerala GPA: 7.717 / 10

Relevant Coursework: Machine Learning · Deep Learning · Data Structures & Algorithms · Database Management Systems · Web Technologies

CERTIFICATIONS

Data Analytics Job Simulation (Forage) — Deloitte Australia
Certificate Link *Jun 2026*

Python for Everybody (University of Michigan) — Coursera
Certificate Link *Nov 2021*

CORE STRENGTHS

Strong analytical and problem-solving mindset ·
Effective communicator and collaborative team member ·
Detail-oriented and self-directed learner ·
Adapts quickly to new tools, frameworks, and environments
